Contact Us

09

EnroChem is empowering businesses through chemical innovation - one breakthrough at a time.

EnroChem is a global leader in chemical manufacturing. We deliver high quality and environmentally responsible chemical solutions to a wide range of industries. As a company we have a commitment to excellence, which has earned us a reputation for providing exceptional products and services, as well as customer satisfaction. We are continuously improving in terms of what we deliver and have been setting industry standards since our inception.

ABOUT US

At EnroChem we are passionate about sustainability and the environment and believe we can take your chemical requirements to the next level. We operate as a highly efficient, specialised chemical distribution and procurement facility. Our unique offering is that we are a supply consultancy that provides formulation and manufacturing products to clients in the chemical industry. We also export and provide sustainable solutions to countries worldwide

MISSION STATEMENT

At EnroChem we aim to empower industries through our innovative, sustainable and reliable chemical solutions in a way that is better for our planet. EnroChem's goal is to provide a tailored supply of specialty chemical raw materials at competitive prices to help grow and assist the various manufacturing entities around the globe.

CORE VALUES

Provide Quality and Cost-Effective Solutions

Instead of copying what has been done, we are committed to revolutionising our offerings, using the latest technology available and personalising it. Our chemical products are of the highest quality and have been created using the latest industry advancements available.

Continuously Develop and Improve Our Offerings

EnroChem has designed and developed new processes to manufacture various products and in all instances we have either met or exceeded regulation standards. We are committed to being a company at the forefront of the chemical industry.

Promote Sustainability

Eco-friendly practices are a priority for us and we are dedicated to minimising our environmental footprint as much as possible. Our products and services aim to promote environmental health, protect natural resources and mitigate the impact of pollution. As a company it is important that, through our practices, we contribute to a cleaner, greener and more resilient world.

Pursue Innovation and Positive Development

EnroChem fosters a culture of continuous learning, adaptability and growth in order to meet the industry's constantly-evolving needs. Through research and development we keep abreast of market trends and knowledge, and that reflects in our products and service offerings.

Remain Customer-Centric

Our clients' success is our success, and we are committed to providing exceptional customer service and support. We offer quality and cost-effective solutions worldwide and maintain a strong and extensive distribution network to ensure efficient and timely product delivery.

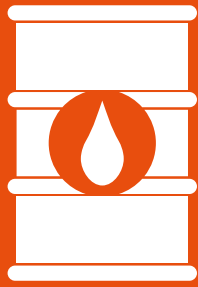

WHY ENROCHEM?

We lead the way with quality and expertise and prioritise customer satisfaction, which we believe is part of our success as a company.

We are fully committed to sustainable development, a principle that is an integral part of our business thinking and practices.

As a company we are extremely thorough in our research, so our expertise, based on cutting-edge technological advancements, allows us to assist clients skilfully.

We use our Integrated Management System to ensure quality and consistency across the full supply chain.

PRODUCTS & SERVICES

We offer a variety of Products & Services to meet your needs:

Services

- We have a range of Bio-remediation products that we can educate and advise our customers on
- We are able to export our products anywhere in the world, thereby reducing the strain of sourcing difficult materials
- We have a diverse collection of Construction Chemicals designed for whatever stage of construction you are in.

Products

- Bio-remediation range
- Construction chemicals
- Eco-friendly surfactants
- Silicone emulsions
- Wax emulsions
- Anti-foam Defoamers

OUR PRODUCTS

BIO-REMEDICATION RANGE

Enro-Oil Treat

Enro-Oil Treat is a Concentrated Blend of Bacteria, carefully selected to provide Complete Biodegradable, Biological Treatment of any Hydrocarbon based oil spill. The Enro-Oil Treat is mainly used to treat soil contamination but will work just as well to treat contaminated water and even any oil that has been contained.

Enro-Waste Treat

Enro-Oil Treat is a Concentrated Blend of Bacteria, carefully selected to provide Complete Biodegradable, Biological Treatment of any Hydrocarbon based oil spill. The Enro-Oil Treat is mainly used to treat soil contamination but will work just as well to treat contaminated water and even any oil that has been contained.

CONSTRUCTION CHEMICALS

ENRO-DustWet 500

ENRO-DustWet 500 is a Proprietary blend of Anionic & Non-ionic Surfactants (Wetting Agents), Corrosion Inhibitors, Chelates, Preservative and Water. It can be used for most dust suppressing applications.

ENRO-Release-PW-PE4

ENRO-Release-PW-PE4 is a Low Viscosity Paraffin wax of Mineral Oil Emulsion chemically consisting of Mineral/Paraffinic Oils & Waxes. It can be used for most concrete release applications.

ENRO-CemKure 15-Clear

ENRO-CemKure 15-Clear is a Solvent-Free, Water-based Paraffin Wax Emulsion Curing Compound for New Concrete.

ENRO-DrillingFoam S50

ENRO-DrillingFoam S50 is a Concentrated Blend of High Foam, Biodegradable Surfactants, for use in the Mineral and Water Well Drilling Industries.

WAX EMULSIONS

EnroWAX 30E

EnroWAX 30E is a hard, oxidised, polyethylene wax in water emulsion. It is ready to use in all types of water based floor and automotive polishes, of either the non-buffable or buffable types.

ECO-FRIENDLY SURFACTANTS

ENVIRO-908NS

ENVIRO-908NS is a Nonionic Surfactant blend of both Straight chain and Branched chain fatty alcohol hydrophobes. It can be used as a drop-in replacement for NP9, in most applications.

ENVIRO-906NS

ENVIRO-906NS is a Nonionic Surfactant blend of both Straight chain and Branched chain fatty alcohol hydrophobes. It can be used as a drop-in replacement for NP9, in most applications.

ENVIRO-60NS

ENVIRO-60NS is a Nonionic Surfactant blend of both Straight chain and Branched chain fatty alcohol hydrophobes.

ENVIRO-406NS

ENVIRO-406NS is a Nonionic Surfactant blend of both Straight chain and Branched chain fatty alcohol hydrophobes.

EnviroSURF-226

EnviroSURF-226 is a blend of both Straight chain and Branched chain Fatty Alcohol Ethoxylates, Hydro topes and Corrosion Inhibitors. EnviroSURF-226 is an optimised surfactant blend, designed for use in Heavy Duty Water Based Alkaline, Neutral and Acid Degreasing Cleaners.

SILICONE EMULSIONS

EnroSIL 60E

EnroSIL 60E is a Medium Viscosity (350cSt) Polydimethylsiloxane (Silicone Fluid) emulsion. It is safe to handle and does not contain any Phenol Ethoxylates nor Formaldehyde. As such, EnroSIL 60E is also environmentally acceptable.

EnroSIL 36E

EnroSIL 36E is a medium viscosity (350cSt) Polydimethylsiloxane (Silicone Fluid) emulsion. It is safe to handle and does not contain any Alkyl Phenol Ethoxylates nor Formaldehyde. As such, EnroSIL 36E is safe to use and environmentally acceptable.

EnroSIL 60E

EnroSIL 60E is a Medium Viscosity (350cSt) Polydimethylsiloxane (Silicone Fluid) emulsion. It is safe to handle and does not contain any Phenol Ethoxylates nor Formaldehyde. As such, EnroSIL 60E is also environmentally acceptable.

EnroSIL 60E-HG

EnroSIL 60E-HG (HIGH GLOSS) is a Medium to High viscosity (1000cSt) Polydimethylsiloxane (Silicone Fluid) Emulsion, allowing for a Larger Oil Molecule, resulting in a Higher Gloss. It is Safe to handle and does Not contain any Phenol Ethoxylates nor Formaldehyde. As such, EnroSIL 60E-HG is Also Environmentally Acceptable.

EnroSIL 100E

EnroSIL 100E is a low/medium viscosity (350cSt) Polydimethylsiloxane (Silicone Fluid) emulsion concentrate paste. It is economical and Versatile: Allows the end user to simply dilute down to required activity. It dissolves in water in 15 - 30 minutes with agitation. It is safe to handle and does not contain any Phenol Ethoxylates nor Formaldehyde. As such EnroSIL 100E is also Environmentally acceptable.

ANTIFOAM DEFOAMERS

EnroSIL 10DF

EnroSIL 10DF is a range of general purpose Anti-Foamers/Defoamers for use in any Water based system prone to foaming and aeration.

EnroSIL 20DF

EnroSIL 20DF is a range of general purpose Anti-Foamer/ Defoamer for use in any Water based system prone to foaming and aeration.

EnroSIL 30DF

EnroSIL 30DF is a range of general purpose Anti-Foamer/Defoamer for use in any Water based system prone to foaming and aeration.

EnroSIL 100DF

EnroSIL 100DF is a general purpose Anti-Foam/Defoamer for use in a wide variety of Non-Aqueous & Aqueous Systems that are prone to foaming and aeration. They consist primarily of Polydimethyl-siloxane (Silicone Fluid) and Hydrophobic Silica.
